Highlights from Q1 of FY Ending March 31, 2026 (2)

- The **impact** of the system failure on profit before tax in Q1 was a **decrease of ¥0.72 billion**, in line with our forecast for FY2026.
- We strengthened cooperation with our servicer subsidiary from the second part of Q1 and **began full-fledged efforts to quickly collect delinquent receivables** caused by the system failure.
- Business operations are **stable due to the simultaneous operation** of the old and new systems. The reconstruction of the new system is **progressing as planned**.

Profit before taxes for Q1 FY26 (excluding the impacts of one-off losses)

Impacts due to system failure

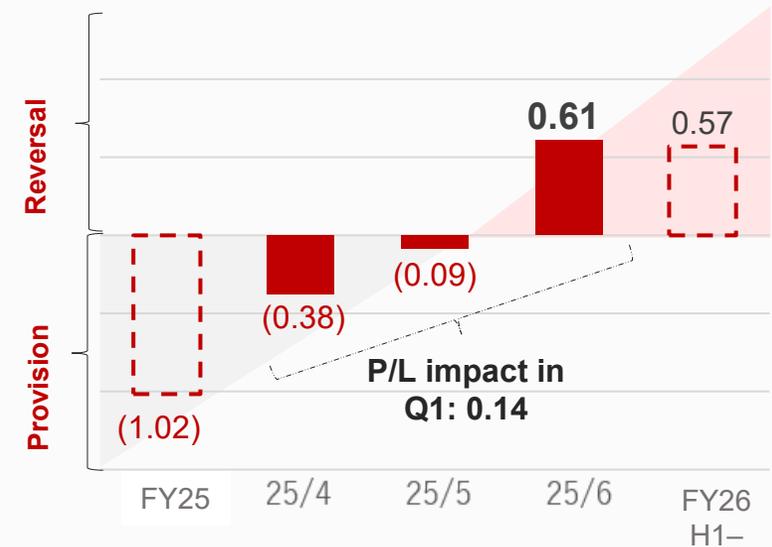

(Billions of yen)

	FY26 Full-year (forecast)	FY26 Q1 (results)
Support costs due to system failure		
System support costs	1.66	0.67
Outsourcing expenses etc.	0.26	0.19
Allowance for doubtful accounts	(0.71)	(0.14)
Total (impact on profit before tax)	1.21	0.72

- ✓ The system support costs of ¥0.67 billion are **primarily comprised of maintenance and operation costs** for the system vendor associated with the establishment of simultaneous operation of the old and new systems. A **decrease** is expected from **Q2 onward**.

Trend in allowance for doubtful accounts (impact of system failure)

(Billions of yen)

- ✓ Due to the impact of delinquent receivables from FY2025, we additionally posted allowance for doubtful accounts until May 2025, but the **effects of collection efforts gradually became apparent**, resulting in a **reversal gain of ¥0.61 billion in June**.

Highlights from Q1 of FY Ending March 31, 2026 (3)

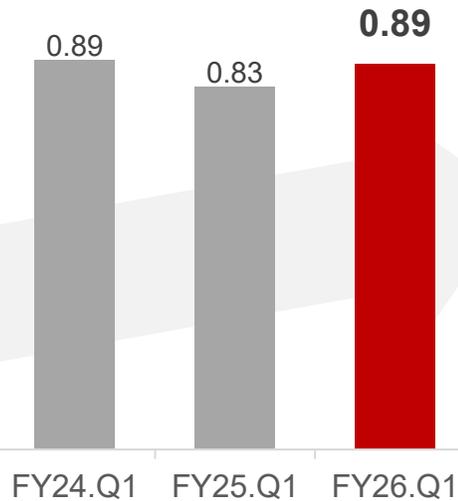

- The number of new vehicles sold grew at a single-digit pace supported by strong sales of light motor vehicles, while the number of used passenger vehicles registered was flat.
- **Total volume of new loans grew at double digits** driven by continuing **improvements in operating rates at Car Premium Dealers** and increased transactions at major dealerships.
- **The total volume of automobile warranties recovered to double-digit growth, primarily driven by growth in our own high margin products developed in-house.**

Consolidated Performance

(Millions of yen)

- Operating revenue **exceeded the plan**, surpassing ¥10.0 billion. Figures for operating profit and profit before **tax progressed as planned**.
- The increase in operating expenses was due to the **impact of the system failure** in FY2025. **This cost** is temporary and **will not occur in FY2026 or subsequent fiscal years**.
- Excluding one-off losses, **profit before tax** was **up** significantly by **29.5%** YoY.

	FY25 Q1	FY26 Q1	YoY change
Operating revenue	8,674	10,296	+18.7%
Operating expenses	6,852	8,711	+27.1%
Operating profit	1,823	1,585	(13.1%)
Profit before tax	1,876	1,707	(9.0%)
Profit before tax [Excluding the impacts of one-off losses]	[1,876]	[2,430]	[+29.5%]
Profit attributable to owners of parent	1,274	1,214	(4.7%)
Basic earnings per share (yen)	33.62	31.93	(5.0%)

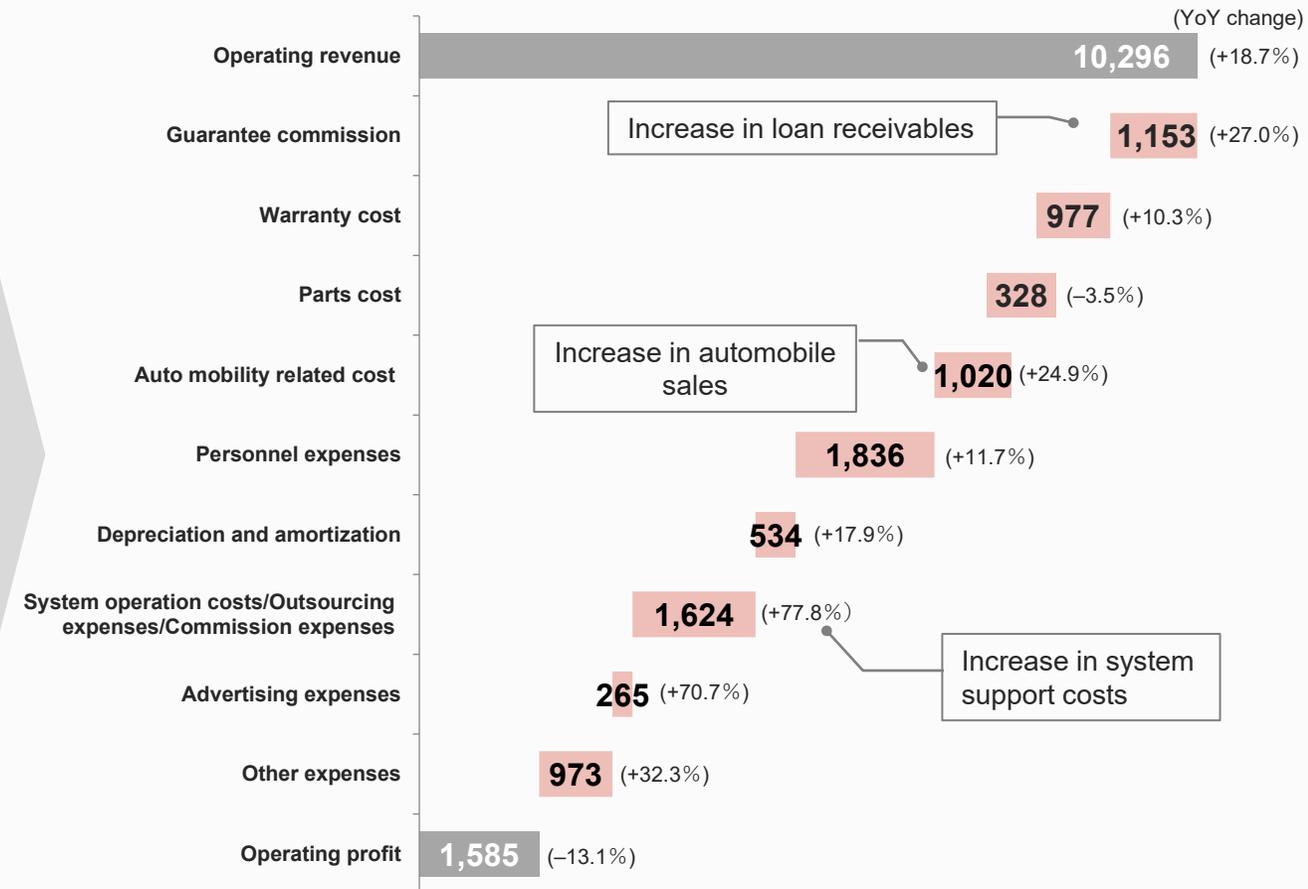

Operating Expenses (Breakdown)

- Excluding system support costs, etc., **operating expenses increased 16.6%** YoY to ¥7.98 billion, and efforts to **improve cost efficiency will continue**.

FY25 Q1 Operating expenses ¥6,852 million

FY26 Q1 Operating expenses ¥8,711 million (up 27.1% YoY)

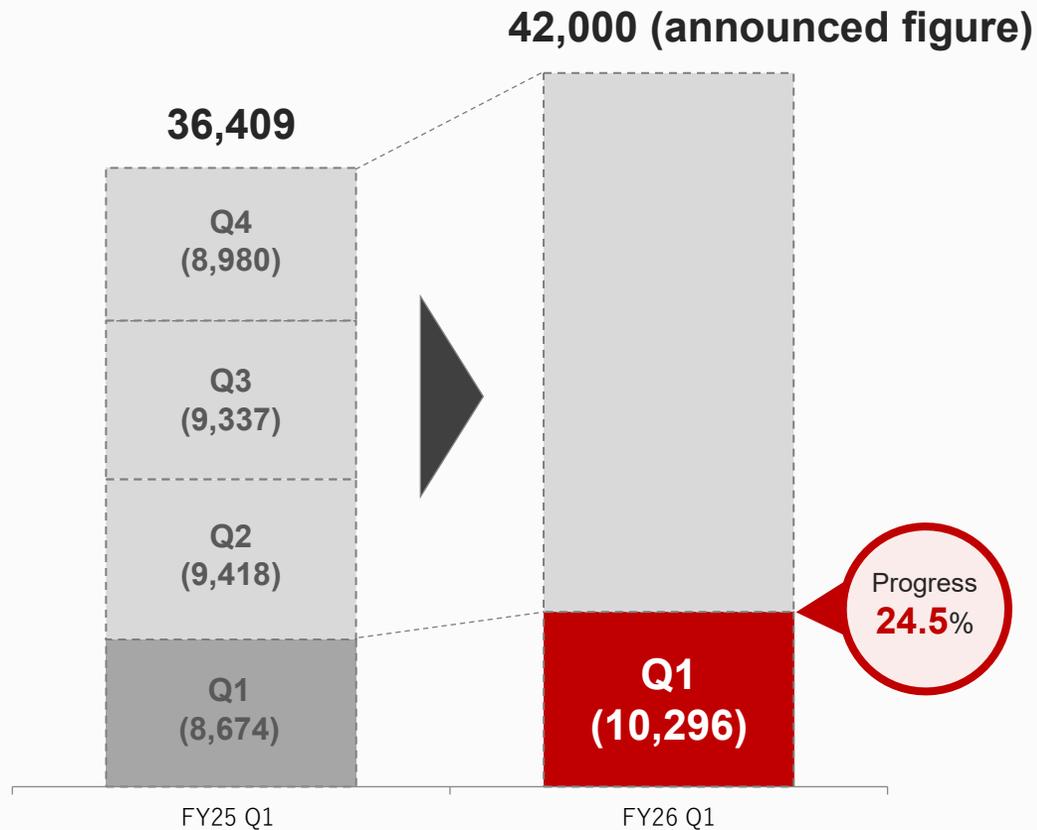

Notes: 1. Since it is a preliminary value, we will promptly notify you on our website when any corrections or changes occur.

2. There was an item "impairment losses on financial assets" in the financial results presentation for FY2025. As these losses did not occur in Q1 FY2026 or Q1 FY2025, the item has been deleted.

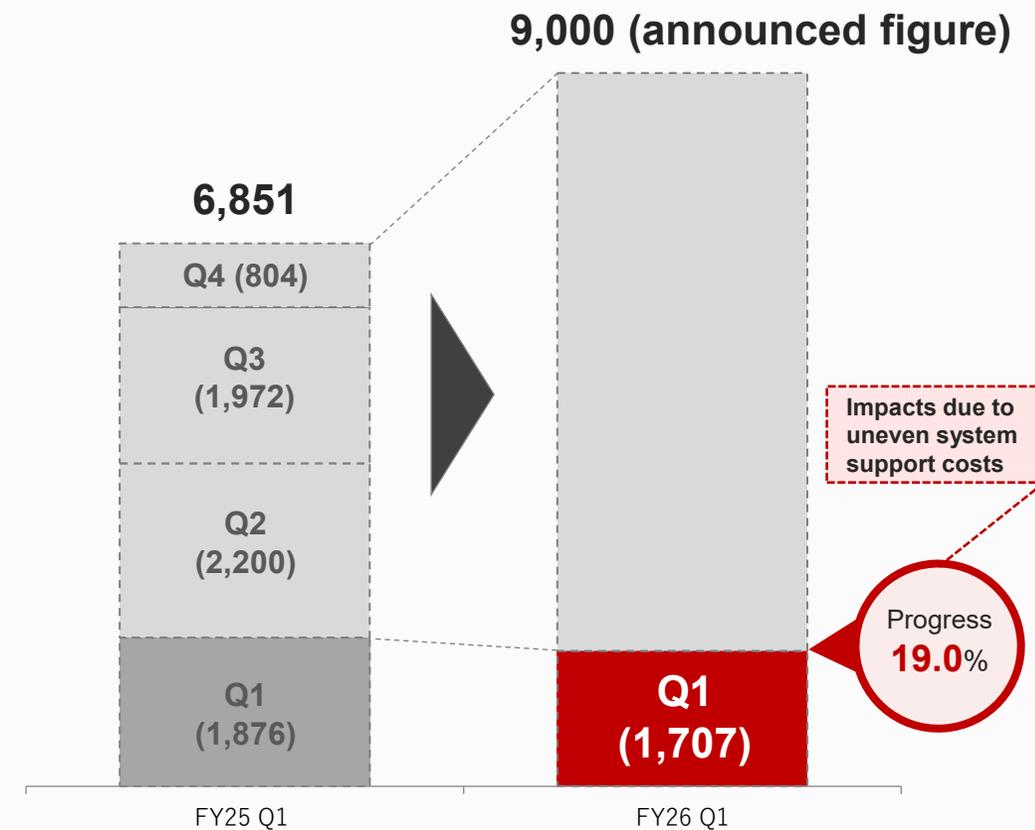

Full-Year Performance Outlook

- Figures for both operating revenue and profit before tax are **progressing according to our forecast** for FY2026.
- **The top line in the three core businesses** is expected to **remain strong**, and we expect to record a **reversal** of the allowance for doubtful accounts. System support costs were incurred unevenly in Q1. **These costs will decline** in Q2 and beyond and the **progress** of profit before tax is expected to **improve**.

- Thanks to **steady growth in Car Premium Dealers** and **improved operating rates**, the **total volume of new loans increased by 15.0% YoY**.
- Loan receivables **exceeded ¥800 billion**, and growth in the volume of new loans **accelerated the growth** in loan receivables.
- Although the delinquency rate increased due to the system failure, the collection process has largely returned to normal due to the simultaneous operation of systems, and we anticipate that the delinquency rate will decline going forward. There are no concerns for significant increase in insurance expenses in the future

Delinquency rate trend (Illustrative)

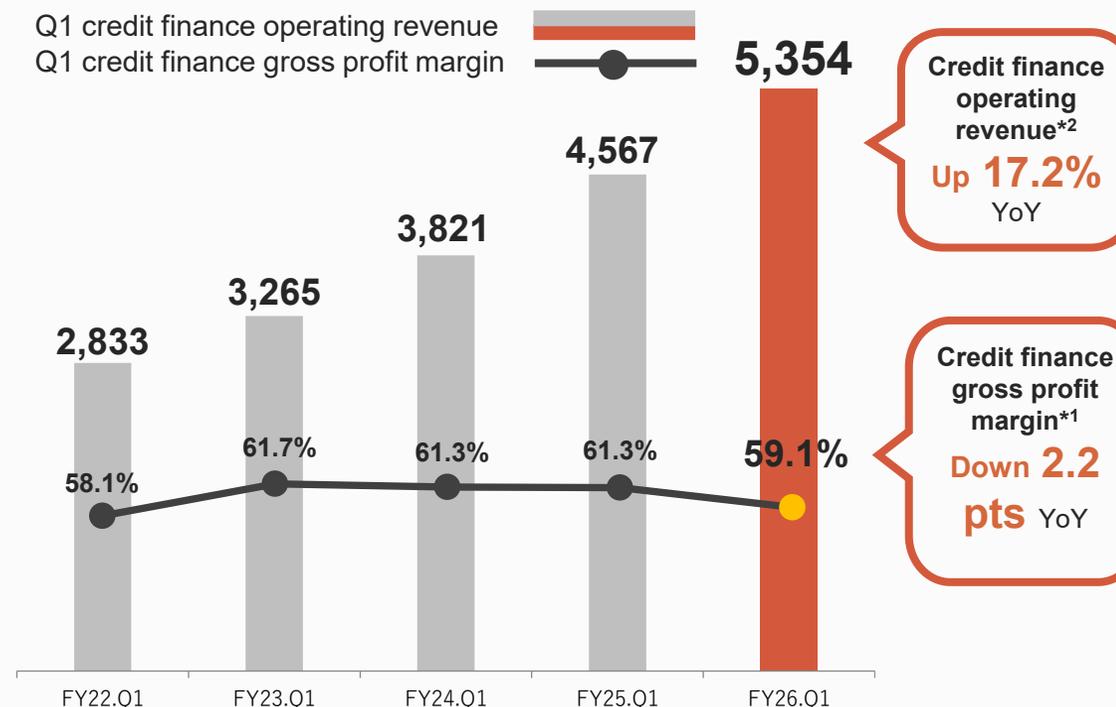

- ✓ Although it will **take time** for the delinquency rate to return to normal, the **path to normalization is already in place**.
- ✓ We did not need to file an insurance claim; thus, there was **no impact on insurance expenses**.

Notes: 1. "Total volume of new loans" refers to the total amount of credit and lease contracts newly signed in the period. The figures are inclusive of the total volume of new loans of products other than automotive credit financing (Ecology Credit, etc.), and are the actual results of Premium Co., Ltd.
 2. "Loan receivables" refers to the total amount of credit and lease contracts that has not been repaid or for which the warranty period has not elapsed from the end of the period. The figures are inclusive of the receivables balance of products other than automotive credit financing (Ecology Credit, etc.), and are the actual results of Premium Co., Ltd.
 3. "Delinquency rate" refers to the total amount of receivables that are more than 3 months in arrears and special loan receivables (with judicial intervention), expressed as a percentage of the loan and lease receivables at the end of the period.

- Although there was an **impact of one-off losses** (¥720 million) due to the failure of a core system, profit before tax excluding this impact remained strong, **increasing by 28.8% YoY**.
- Despite a decline in the credit finance gross profit margin, operating revenue grew by 20.5% YoY driven by the **increase in loan receivables (up 22.7% YoY)**.
- Credit finance gross profit is expected to **turn upward** thanks to the **effect of passing on higher interest rates to customers** from March 2025.

	FY25 Q1	FY26 Q1	YoY change
Operating revenue	4,812	5,797	+20.5%
Operating profit	1,220	843	(30.8%)
Profit before tax	1,223	853	(30.3%)
Profit before tax [Excluding one-off losses]	[1,223]	[1,575]	[+28.8%]

*1 Calculated by dividing operating profit related to credit finance by operating revenue related to credit finance. Furthermore, operating expenses at the time of calculation of credit finance gross profit margin are comprised of expenses directly incurred in order to acquire loan receivables (interest rates, guarantee fees, personnel costs, rent, etc.).

*2 Represents the total of operating revenue related to credit finance.

- Tapping into **new warranty customers** as well as **deepening relationships of trust** with existing customers has not only **increased** the number of transactions but also the transaction amount **per network store**.
- While the number of used passenger vehicles registered was flat, the total volume of new warranties **grew significantly, up 17.9% YoY**.
- **Premium warranties grew by an impressive 49.4% YoY**. **OEM warranties**, which had been sluggish, are also **showing signs of making a comeback** due to improved after-sales support.

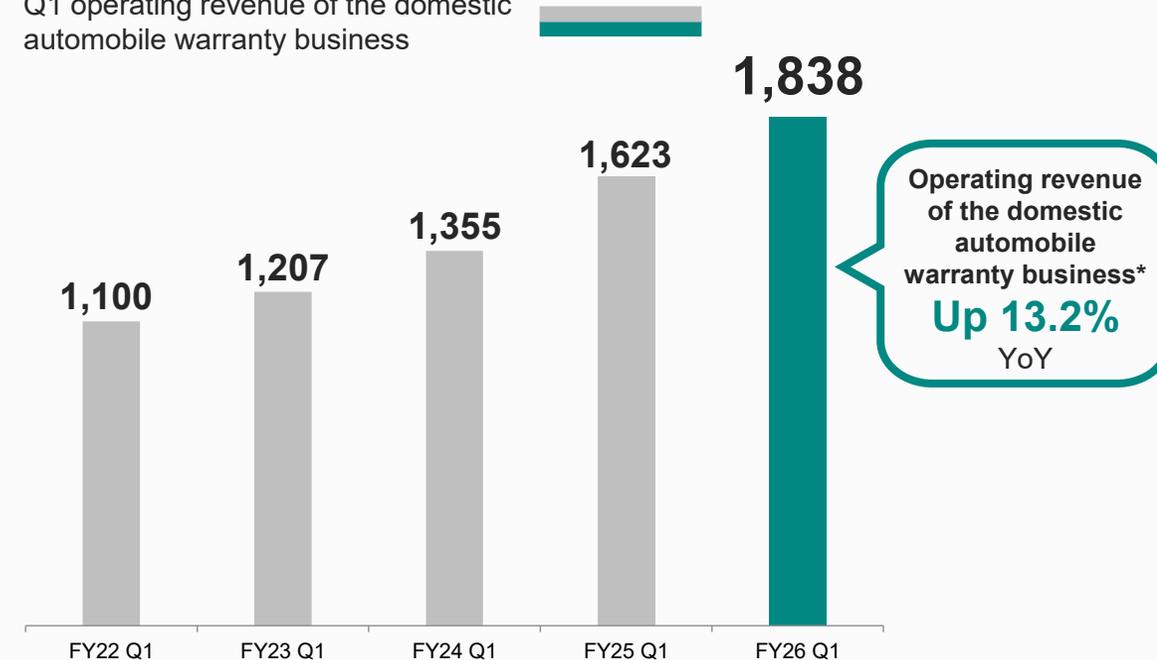

Notes: 1. "Total volume of new warranties" refers to the total amount of warranty contracts newly signed in the period.
2. The bottom row of the bar graph represents Premium warranties and the top row OEM warranties.

- Operating revenue is trending steadily, recording double digit growth. Furthermore, we recorded high growth in the volume of new loans in Q1, **steadily building a foundation for revenue expansion.**
- Although operating expenses increased amid increased SG&A expenses, such as advertising costs, **profit before tax grew by double digits** underpinned by ongoing **coefforts.**

	FY25 Q1	FY26 Q1	YoY change

- **Car Premium Club's** operating revenue **continued to grow at a high rate of over 30%** YoY, even as the effect of membership fee increases faded away.
- Gross profit per vehicle decreased due to the **impact of falling market prices** in automobile sales (Business-to-Business) .
- Although software sales saw a decrease in both operating revenue and profit due to the **time lag between orders and deliveries**, we expect a **recovery** from Q2 onwards.
- Regarding the auto mobility services segment, we will review our business structure and aim to further strengthen its foundation from Q2 onward.
